AXIS DATA SOLUTIONS JOINS THE SYMITAR VENDOR INTEGRATION PROGRAM (VIP)

January 22, 2014, Orlando, FL -- AXIS Data Solutions announced that it has joined the Symitar® Vendor Integration Program (VIP). Participation in the program will enable AXIS Data Solutions to integrate with Symitar's core processing system, Episys®. The Vendor Integration Program is designed to help ensure that Symitar customers can easily deploy third party products.

AXIS Data Solutions provides services to many credit unions that are on the Episys platform and has been working with Episys data for many years. Dave Osterrieder, AXIS's Director of Client Solutions said, "By joining the VIP program at Symitar, AXIS is able to help ensure that its products and services will integrate with the platform to deliver timely and relevant communications to credit union members across both online and offline channels."

"AXIS Data Solutions' experience gives us an edge in providing uninterrupted service to our credit union and banking clients," said AXIS President David Salazar. "We are delighted to join the Symitar VIP program and to work with many of the credit unions that Symitar currently serves."

Symitar, a division of Jack Henry & Associates, Inc. (NASDAQ:JKHY), is the leading provider of integrated computer systems for credit unions of all sizes. Symitar currently serves more than 750 credit unions as a single source for integrated, enterprise-wide automation and as a single point of contact and support. Additional information is available at www.symitar.com.

Headquartered in Orlando, Florida, AXIS Data Solutions is an SSAE16 Type 2 audited service firm delivering unsurpassed excellence in data programming, laser printing, mail processing and e-business applications that meet the expanding needs of financial institutions, government entities and corporations throughout the United States.
